

Trialon Corp.  
1477 Walli Strasse Blvd.  
Burton, MI 48509

Test ID	33329.
Date	20MAY14
Client	Talyor Brothers Door Lock LLC
DUT Description	Door Lock
Method description	Compression force until stop Custom Profile
Fixturing	See Test Report Photo(s)
Crosshead Speed	4. in/min
Load Cell	30 kN
Operator	D. Verellen

Custom Compression Force Profile/ Results Table 1 to 1

	Sample Number	Sample Comment	Load to Peak [lbf]	Displacement to Peak [in]	Load to Seat [lbf]	Displacement to Seat [in]
1	S1	Door Lock Plate mounted to wood	1,521.04	0.48	1,362.37	0.73
Mean						
Standard deviation						

Note(s): Samples were exposed to compressive force until samples were degraded or deformed. All data was given to the client. No Visual anomalies noted. Testing was performed according to client specification.
